

Frequently Ask Questions - Grand Pré Milk and Cream

. . . . Is it really milk?

Yes it is!

Grand Pré milk is made of real milk and like any other refrigerated milk, it is a high quality product.

Furthermore, **Grand Pré** milk has distinctive features that refrigerated milks don't have.

. . . . What are these features?

Grand Pré milk can be kept for up to 9 months without refrigeration.

It's one of a kind Tetra Pak container allows the milk to tolerate extremely high temperature without altering the quality or the good taste of the milk.

Grand Pré milk has no preservatives.

. . . . Why is it called shelf stable milk?

The combination of 2 essential elements allows for its long conservation:

The UHT (ultra high temperature) pasteurization process:

During the UHT pasteurization process, the milk is heated at a much higher temperature than a regular pasteurization (refrigerated milk).

In simple words, through the UHT process the bacterias normally found in the milk become inactive up until the container is opened.

Once the container is opened, the bacterias reactivate and **Grand Pré** milk must be refrigerated. Like any refrigerated milk,

Grand Pré

milk will keep for up to 20 days.

AND

The Tetra Pak container:

This unique aseptic and sealed container blocks any heat or light infiltration that could alter the milk's taste or quality.

Furthermore, this distinctive container allows the milk to keep for up to 9 months without refrigeration.

. . . . How long can I keep Grand Pré milk?

Grand Pré milk can be kept at room temperature for up to 9 months and once opened, The milk must be refrigerated and will keep for 20 days.

. . . . Can I bake or cook with Grand Pré milk?

Most certainly!

Grand Pré milk is ideal for cooking and baking because it has previously been heated at an ultra high temperature during its UHT pasteurization.

. . . . What are the advantages of a shelf stable milk for cooking or baking?

When using **Grand Pré** UHT shelf stable milk for cooking, you don't get the reaction that naturally occurs when you introduce a cold liquid to a hot liquid. Adding **Grand Pré** milk or cream to any sauce or potage will only make them even more delectable. Try it for yourself!

. . . . We are planning a trip in the Caribbean, can we bring Grand Pré milk?

Yes you can!

If you want to offer your kids the same great tasting milk they are used to drinking at home, be sure to pack a few containers in your luggage before you leave! **Grand Pré** milk allows you to give them a high quality milk anywhere you go!

Don't forget to also pack **Grand Pré's Chokéo** chocolate milk beverage; it has the same practical features as **Grand Pré** milk...and children just love it!

. . . . Why do we appreciate Grand Pré milk and cream?

Simply because of its great taste and its practical features:

- When baking your favorite deserts...
- When making hot chocolates or café au lait...
- When making any recipe that requires milk or cream...
- To make your potages and chowders even more delectable...

- To make your sauces even more delicious!

And mostly because **Grand Pré** is...*conveniently fresh any time!*

Suggestion: Use **Grand Pré** milk for your cappuccinos; you will get a firm froth every time!
